BLM OPEN HOUSES

Live demonstrations will be given on
BLM's NILS GeoCommunicator and
LR2000 Systems, as well as a Question and
Answer period and hand's-on practice with
the programs!

You will learn how to use the BLM's NILES GeoCommunicator and LR2000 Systems to:

- Download PLSS data (Township/Range/Section grid)
- Map BLM oil and gas, geothermal, coal, and potash leases and agreements
- Run reports from LR2000 and GeoCommunicator
- Access new layers such as grazing allotments and pastures, cases that affect land status, U.S. Forest Service sale parcels
- Map mining claims, run reports, get mining claim data
- Use GeoCommunicator map services within your GIS
- BLM Users - Learn Site Mapper and NILS Review
